we have mineralization/export permits with numerous mines across Mexico, Chile, and Peru and South Africa.

When buying Iron Ore from us you are buying a supply agreement for our mines to increase capacity to extract the ore and process into the product that you request, then for my team to arrange logistics and export to you.

We are currently offering supply agreements covering a total monthly production capacity of 3,000,000Mt per month for buyers to tender.

Once our current supply capacity is secured, any future supply agreements will be offered from our existing supply agreements that may end by non-extension of each agreement.

Our listed price for a 100,000Mt per month supply agreement CIF any world port is:
PLATTS minus 9%

Procedure as below..

you can send an LOI accordingly or make contact for further discussion.
