Fluoride	4%max	
Organic matter	0,90%max	

offer from 3 mines in Egypt.

The one in the official offer is Safaga mine. Unplanned renovation works had to be implemented couple of weeks ago. Large part of the production is halted. For now, we dont know when they will be able to renew the supply. I will let you know as soon as they will be ready to perform again. My colleague is going to visit them in September -- well understand the situation better.

Nevertheless, there is a free capacity in two other mines: Abo T and Red Sea. Please kindly see the latest chemical analysis for 28% P2O5.

PRICE CIF CHINA PORT FOR BOTH TYPES IS 135 USD X MT..

Available capacity monthly

300,000 MT mine Abo T

70,000 MT mine Red Sea

Procedure as below..

SEND LOI ON LETTERHEAD WITH FULL BANKING DETAILS
